Our Company History

Northeastern Scale Models was founded in 1946 with a simple philosophy: to provide the finest model building materials possible.

Our founder, the late James Doyle, was an avid model builder who started designing model kits and cutting wood shapes for himself and others when he found they weren't available anywhere else. His talent for precision woodworking was truly a gift. In many instances, out of frustration for product, Jim had to literally invent the machinery to cut wood to his exacting requirements. As a reminder to us all, Jim's original drafting table still stands, a tribute to his superb design talent.

And now, several decades later, Northeastern Scale Lumber refuses to compromise the philosophy and tradition first started by Jim Doyle. All manufactured products by Northeastern Scale Lumber are built with the same quality, dependability and integrity, just as they were made, back in 1946.

- 1946 Jim Doyle founded Northeastern Scale Models, Inc. (NESM)
- 1948 Strip wood lumber introduced
- 1950 N & HO Scale lumber introduced
- 1953 Siding & Scribe lumber introduced
- 1955 Rolling stock cars introduced
- 1960 Architectural scale lumber introduced
- 1970 Doll house lumber introduced
- 1974 Jean Oriol joins NESM
- 1980 Laser cutting dollhouse kits
- 1981 Jim Doyle deceased.
- Jean & Nancy Oriol become owners of NESM
- 1984 Laser cutting introduced
- 1985 Ship decking introduced
- 1990 Laser cutting railroad kits
- 2001 NESM laser division moves to California
- Larry Digney purchases lumber line of NESM. New name Northeastern Scale Lumber (NESL)
- Carving Blocks introduced
- 2002 Ultra thin plywood introduced
- 2003 6" wide siding introduced, including Aged Siding
- 2004 Mahogany Strip wood introduced
- 2005 Michael Sarno purchases NESL
- 2006 Rolling stock lumber returns
- 2007 Corrugated metal roofing introduced
- 2008 O Scale Lumber introduced
- Flamingo Glue introduced
- Northeastern Craftsman Structure Supply Store opens
- 2009 Corrugated Metal Roofing
- Snow Plow Kit
- 2010 HD Windows and Doors
- 2011 Heater Car Kit
- 2012 Paper Roof Shingles

"HO" - "N" - "O" Scale Lumber

Please order by scale size.
Available in 24" lengths or in display packages.

Tradition + Experience + Craftsmanship + Innovation **Equals Northeastern Scale Lumber Co., Inc.**

About our wood

We start with the best trees. We select only the finest Basswood, Mahogany and Cherry lumber. Our Basswood is only selected and cut in a particular season to ensure proper color. Our FAS Pattern Mahogany is the highest grade mahogany available (virtually defect free), this is selected for its straight grain and constant color. All of our lumber is kiln dried to 6% to 8% moisture content. The process begins with rough timbers, through the method of jointing, planing and sawing, then we are able to generate smaller blanks which are then fed into molders to manufacture the scale lumber products enjoyed today. The out fall lumber is used to supply heat to the factory. Nothing is wasted, our sawdust is used to manufacture animal bedding, or used for wood pellets.

Tolerances

All of our wood is accurate to 1/100 of an inch. All lumber is hand inspected for quality, dimension and color. Wood strips up to 1" wide are cut to precision dimensions, Sheets 2" wide or more are cut to close tolerance and are sanded smoothly on both sides. Because of the natural characteristics of wood and the tooling employed in cutting, most strips and sheets have one surface smoother than the other. Modelers are advised to select and inspect stock to take advantage of this feature. Lumber should be stored in a dry location, unheated cellars or garages should be avoided.

Precision is our business

Our commitment to precision is best exemplified by our high quality woodworking and tool making machinery. All of our machinery is custom designed and fabricated or has been modified by our staff engineers for ultimate precision and quality. Innovation has always played a vital roll at Northeastern Scale Lumber Company. Our design team is constantly modifying and improving existing products, and designing new products with fresh ideas. We welcome custom orders of any quantity and look forward to seeing new visions by our clients.

Staff

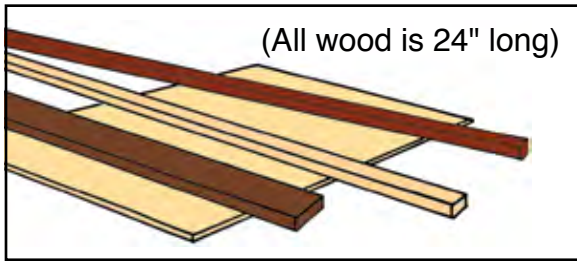

The dedications and enthusiasm of all the Northeastern staff has been the success since 1946. Our employee standards are very high, quality and accuracy is first, we must live up to the standards set forth by our founder Mr. Jim Doyle. His beliefs and forward innovations were a true accomplishment in his day. We thank him for his endeavors in providing the finest scale lumber in the industry and timeless products that will last for generations.

MADE IN THE USA

Basswood & Spanish Cedar Carving Blocks

Smooth Blocks

- 2" x 2" x 12"
- 2" x 3" x 12"
- 2" x 4" x 12"
- 3 3/4" x 4" x 12"

Rough Blocks

25 Pound Box

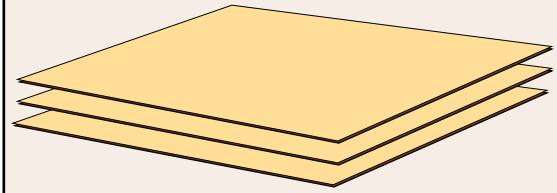

Cut offs, minimum 2" thick, 4" to 8" wide, 3" to 8" long, about 15 pieces total per box.

Also available in 24" lengths.

Baltic Birch Ultra Thin 3 Ply Plywood Also Available in Cross Grain

| SIZE | THICKNESS | | |
|-----------|-----------|-------|-------|
| 6" x 12" | 1/16" | 1/32" | 1/64" |
| 12" x 24" | 1/16" | 1/32" | 1/64" |
| 24" x 48" | 1/16" | 1/32" | 1/64" |

These sheets are ideal where the flexibility of an ultra thin, yet durable sheet is required. Excellent clean appearance, and they accept paint and varnish beautifully.

Flamingo Glue Kit

Item #80525

4 oz. of pink adhesive specially formulated for model kit and scratch building. Includes a 1/2 oz. soft bottle with (2) stainless steel applicator tips (.7mm) delivering a fine line of glue.

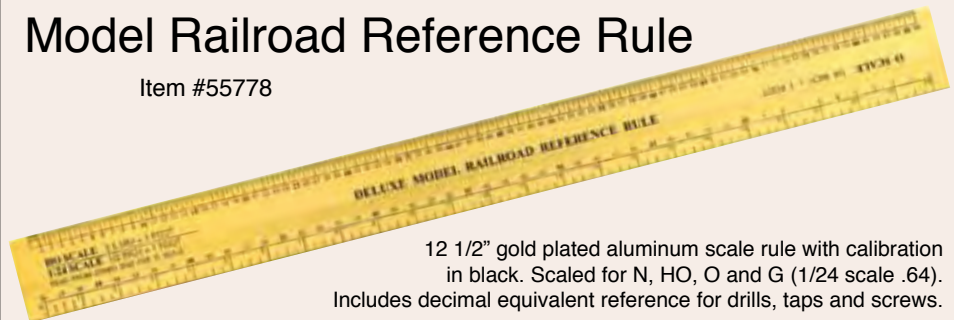

Flamingo Glue Refill

Item #80526

Model Railroad Reference Rule

Item #55778

12 1/2" gold plated aluminum scale rule with calibration in black. Scaled for N, HO, O and G (1/24 scale .64). Includes decimal equivalent reference for drills, taps and screws.

Ship Modelers Tool Set

Set Includes:

- K1 Light Duty Knife
- K2 Medium Duty Knife
- K5 Heavy Duty Knife
- Awl
- Pliers
- Mitre Box
- Tweezer
- 6" Metal Rule
- B490 Saw Blade
- Sanding Block and Wedge
- 4 Assorted Gouges
- 3 Assorted Drills

This set includes the essential knives and tools for building the perfect model ship.

Dollhouse Tool Set

Set Includes:

- K1 Light Duty Knife
- K5 Heavy Duty Knife
- Awl
- Sanding Stick
- Mitre Box
- Pinvise
- 6" Metal Rule
- B490 Saw Blade
- Sanding Block and Wedge
- Regular Screwdriver
- Large Clamp
- Small Clamp
- 3 Assorted Drills
- 3 Assorted Blades

The perfect tool set for building miniature furniture, doll houses and shadow boxes.

Railroad Tool Set

Set Includes:

- K1 Light Duty Knife
- K5 Heavy Duty Knife
- Snap Knife
- Phillips Screwdriver
- Regular Screwdriver
- Pliers
- Mitre Box
- Pinvise
- 6" Metal Rule
- B490 Saw Blade
- Sanding Stick
- Swiss Hammer
- 2 Assorted files
- 3 Assorted Drills
- 3 Assorted Blades

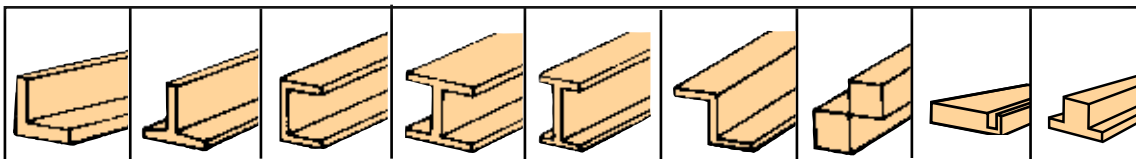

Top quality tool set for model railroad building and repair.

Structural Shapes

Northeastern Scale Lumber is the only supplier in the world that manufactures miniature wooden structural shapes to exact scale. All the shapes are formed from fine quality basswood and in many instances the tolerances are more accurate than "true-to-life" structures.

(All wood is 24" long)

EASTMAN HEATER CAR KIT

Northeastern Scale Lumber's Company is pleased to announce the release of the HO-Scale Eastman Heater Car. The prototype "Eastman Heater Car" was made by the Eastman Heater Car Company of Charlestown, Massachusetts and constructed at the Laconia Car Shops in Laconia, New Hampshire. They were in use on American and Canadian railroads from around 1899 through the late 1930's. Their purpose of this car was to keep vegetables from freezing when being shipped around the country's northern climates during the winter months. They used kerosene heaters and were refuelable from either side of the car. This car kit has never been produced before in any scale or material. It will be a great addition to your layout. (NO TRUCKS OR COUPLERS INCLUDED IN KIT)

This kit is a limited run - 500 available.

When they are gone . . . they are gone.

We will periodically bring back to life a new kit.

Watch our website for our latest kit. \$45.00 each

Dollhouse Trim

Northeastern Scale Lumber is proud to offer basswood 1" to 1' scale precision cut and perfectly detailed miniature replicas of turn-of-the-century gingerbread trim, brackets and porch baluster assemblies. They are so smooth, no sanding is required. They add exceptional beauty and authenticity to every dollhouse!
